

INDUSTRIAL EQUIPMENT THAT

KEEPS OPERATIONS MOVING

CAPABILITY STATEMENT

NAICS 333992 | 2026

GOVAGE

Mission-ready capability and coordinated delivery

A coordinated portfolio for industrial equipment

Equipment, accessories, controls, installation interfaces, and service aligned to the operating requirement.

NAICS 333992 PORTFOLIO

- **EQUIPMENT SELECTION**
Capacity, duty, utilities, footprint, and environment
- **MACHINES & TOOLING**
Production machines, workholding, accessories, and controls
- **PUMPS & COMPRESSORS**
Air, gas, fluid handling, dispensing, and process support
- **HVAC & REFRIGERATION**
Commercial and industrial thermal equipment
- **WELDING & SOLDERING**
Power sources, controls, consumables, and accessories
- **STARTUP & SUSTAINMENT**
Delivery, setup, training interfaces, parts, and service

MISSION-READY BY DESIGN

Plan. Coordinate. Deliver.

A practical path from a specialized requirement to a supportable, compliant operational result.

DEPOTS & MAINTENANCE

PRODUCTION & UTILITIES

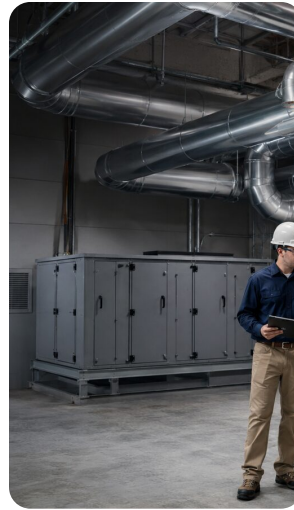

FEDERAL FACILITIES

GovAge coordinates OEMs, equipment configuration, accessories, utilities, site interfaces, delivery, startup resources, documentation, and lifecycle support.

One accountable path for industrial equipment requirements

GovAge coordinates OEM equipment, accessories, and lifecycle resources for welding and soldering equipment manufacturing serving federal and institutional customers.

We align capacity, duty cycle, utilities, controls, safety, accessories, site constraints, freight, installation interfaces, startup, documentation, parts, and service.

01

Application & site review

Confirm process, capacity, duty cycle, utilities, footprint, controls, environmental conditions, safety, access, and acceptance criteria.

02

OEM & configuration alignment

Coordinate manufacturers, equipment configuration, accessories, approved alternates, submittals, schedule, freight, and site readiness.

03

Startup & lifecycle support

Align delivery, positioning, installation interfaces, startup, testing, training support, documentation, warranty, parts, and service.

Three capability domains. One accountable partner.

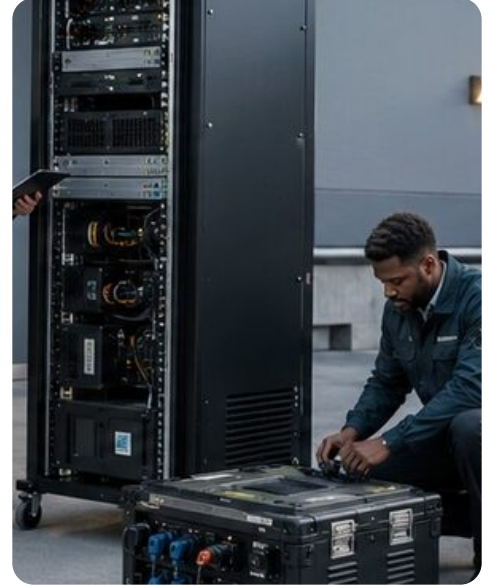

MACHINERY & PROCESS EQUIPMENT

Machine tools, compressors, pumps, dispensing equipment, welding systems, refrigeration equipment, accessories, and production support.

CONFIGURATION & SITE INTEGRATION

Capacity and duty alignment, utilities, controls, safety, footprint, accessories, submittals, delivery planning, and installation interfaces.

STARTUP & SUSTAINMENT

Testing, commissioning interfaces, operator training support, manuals, spares, warranty coordination, repair resources, and lifecycle documentation.

The right equipment fits the process, integrates with the site, starts correctly, and remains supportable throughout its service life.

OUR STRATEGY

One lifecycle. One accountable path forward.

01

PLAN

Define process, capacity, duty, utilities, controls, safety, footprint, site conditions, documentation, and acceptance requirements.

02

SOURCE & CONFIGURE

Align OEMs, equipment, accessories, approved alternatives, submittals, schedule, freight, and installation interfaces.

03

START UP & SUSTAIN

Coordinate delivery, setup, testing, training support, O&M; documentation, warranty, parts, repair, and lifecycle continuity.

**Mission-led. Compliance-aware.
Built to perform and sustain.**

Registered, ready, and accountable

GovAge is an active SAM-registered entity authorized for all awards.
