

COMMUNICATIONS THAT

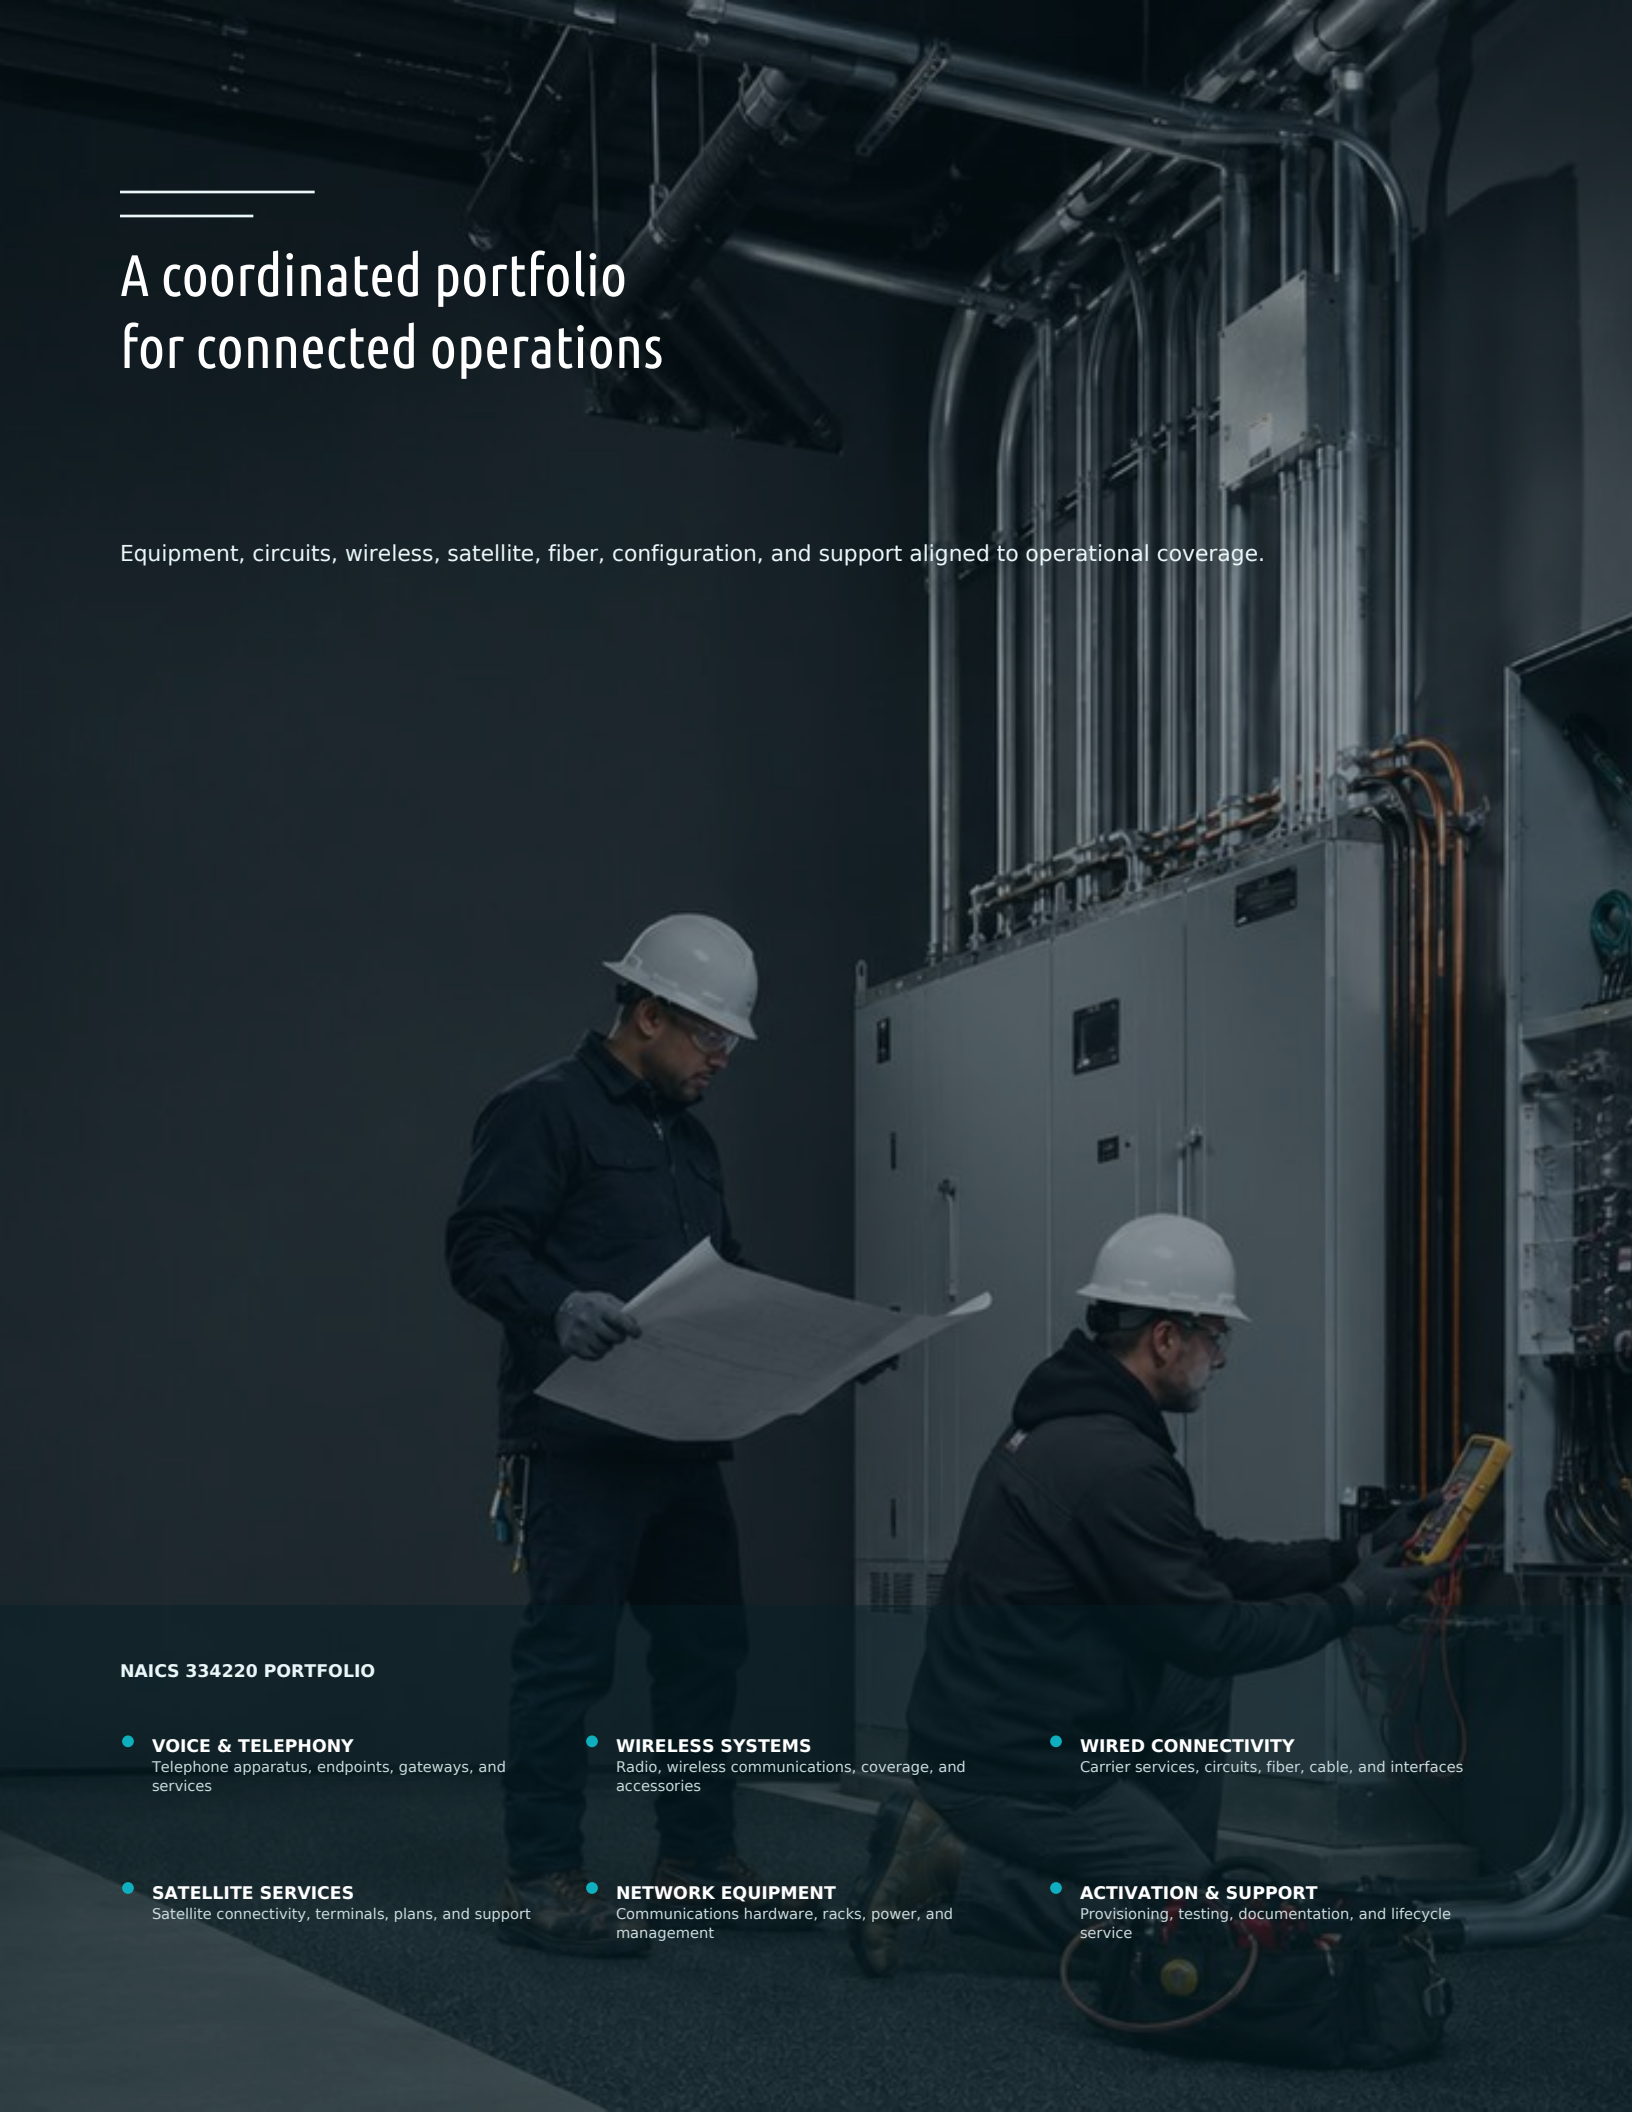

KEEP THE MISSION CONNECTED

CAPABILITY STATEMENT

NAICS 334220 | 2026

GOVAGE

Mission-ready capability and coordinated delivery

A coordinated portfolio for connected operations

Equipment, circuits, wireless, satellite, fiber, configuration, and support aligned to operational coverage.

NAICS 334220 PORTFOLIO

- **VOICE & TELEPHONY**

Telephone apparatus, endpoints, gateways, and services

- **WIRELESS SYSTEMS**

Radio, wireless communications, coverage, and accessories

- **WIRED CONNECTIVITY**

Carrier services, circuits, fiber, cable, and interfaces

- **SATELLITE SERVICES**

Satellite connectivity, terminals, plans, and support

- **NETWORK EQUIPMENT**

Communications hardware, racks, power, and management

- **ACTIVATION & SUPPORT**

Provisioning, testing, documentation, and lifecycle service

MISSION-READY BY DESIGN

Plan. Coordinate. Deliver.

A practical path from a specialized requirement to a supportable, compliant operational result.

ENTERPRISE COMMUNICATIONS

FIELD & REMOTE SITES

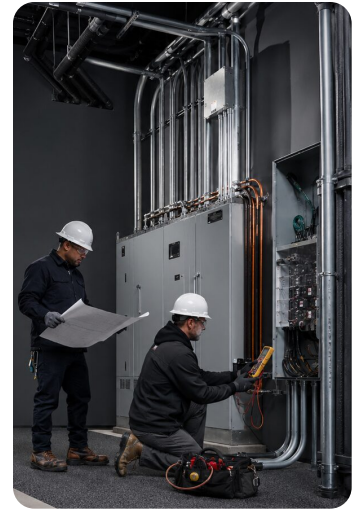

CONTINUITY & EMERGENCY OPERATIONS

GovAge coordinates equipment manufacturers, carriers, resellers, infrastructure, provisioning, coverage, testing, documentation, and lifecycle support.

One accountable path for communications and connectivity

GovAge coordinates communications equipment, connectivity providers, and technical partners for radio and television broadcasting and wireless communications equipment manufacturing serving federal and institutional customers.

We align coverage, capacity, spectrum and carrier interfaces, equipment, circuits, cabling, power, provisioning, installation, testing, service levels, and support.

01

Coverage & capacity planning

Confirm users, sites, traffic, coverage, resilience, interfaces, bandwidth, power, security, service levels, and acceptance criteria.

02

Equipment & service alignment

Coordinate OEMs, carriers, resellers, equipment, circuits, fiber, wireless, satellite, provisioning, schedule, and site readiness.

03

Activation & sustainment

Align installation interfaces, configuration, testing, documentation, service transition, monitoring, support, sparring, and lifecycle continuity.

Three capability domains. One accountable partner.

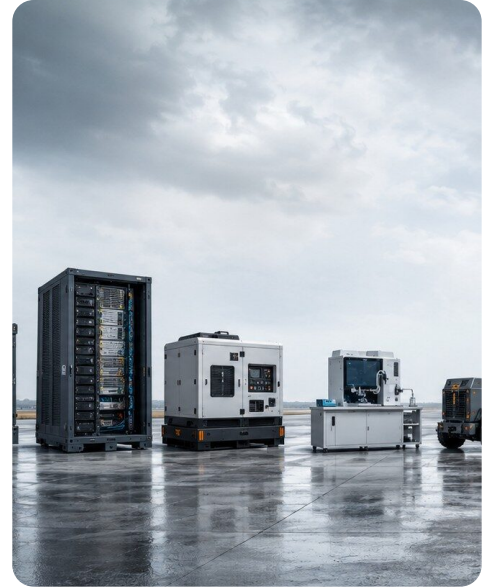

COMMUNICATIONS EQUIPMENT

Telephone, radio, wireless, broadcast, satellite, fiber, wire, networking, switching, interfaces, accessories, power, and environmental support.

CONNECTIVITY & PROVISIONING

Wired, wireless, reseller, and satellite services; circuits, coverage, bandwidth, site readiness, activation, configuration, and service transition.

TESTING & LIFECYCLE SUPPORT

Performance testing, documentation, monitoring, issue coordination, spares, warranty, service levels, refresh planning, and continuity support.

The right communications solution reaches the users, integrates with the environment, validates performance, and stays supportable.

OUR STRATEGY

One lifecycle. One accountable path forward.

01 **PLAN**

Define users, sites, coverage, capacity, resilience, interfaces, power, security, service levels, documentation, and acceptance requirements.

02 **PROVISION & DEPLOY**

Coordinate equipment, carriers, circuits, cabling, wireless, satellite, configuration, site readiness, schedule, and change control.

03 **TEST & SUSTAIN**

Complete activation, performance testing, documentation, service transition, monitoring, issue resolution, sparing, and lifecycle support.

**Mission-led. Compliance-aware.
Built to perform and sustain.**

Registered, ready, and accountable

GovAge is an active SAM-registered entity authorized for all awards.
