

PRECISION SYSTEMS THAT

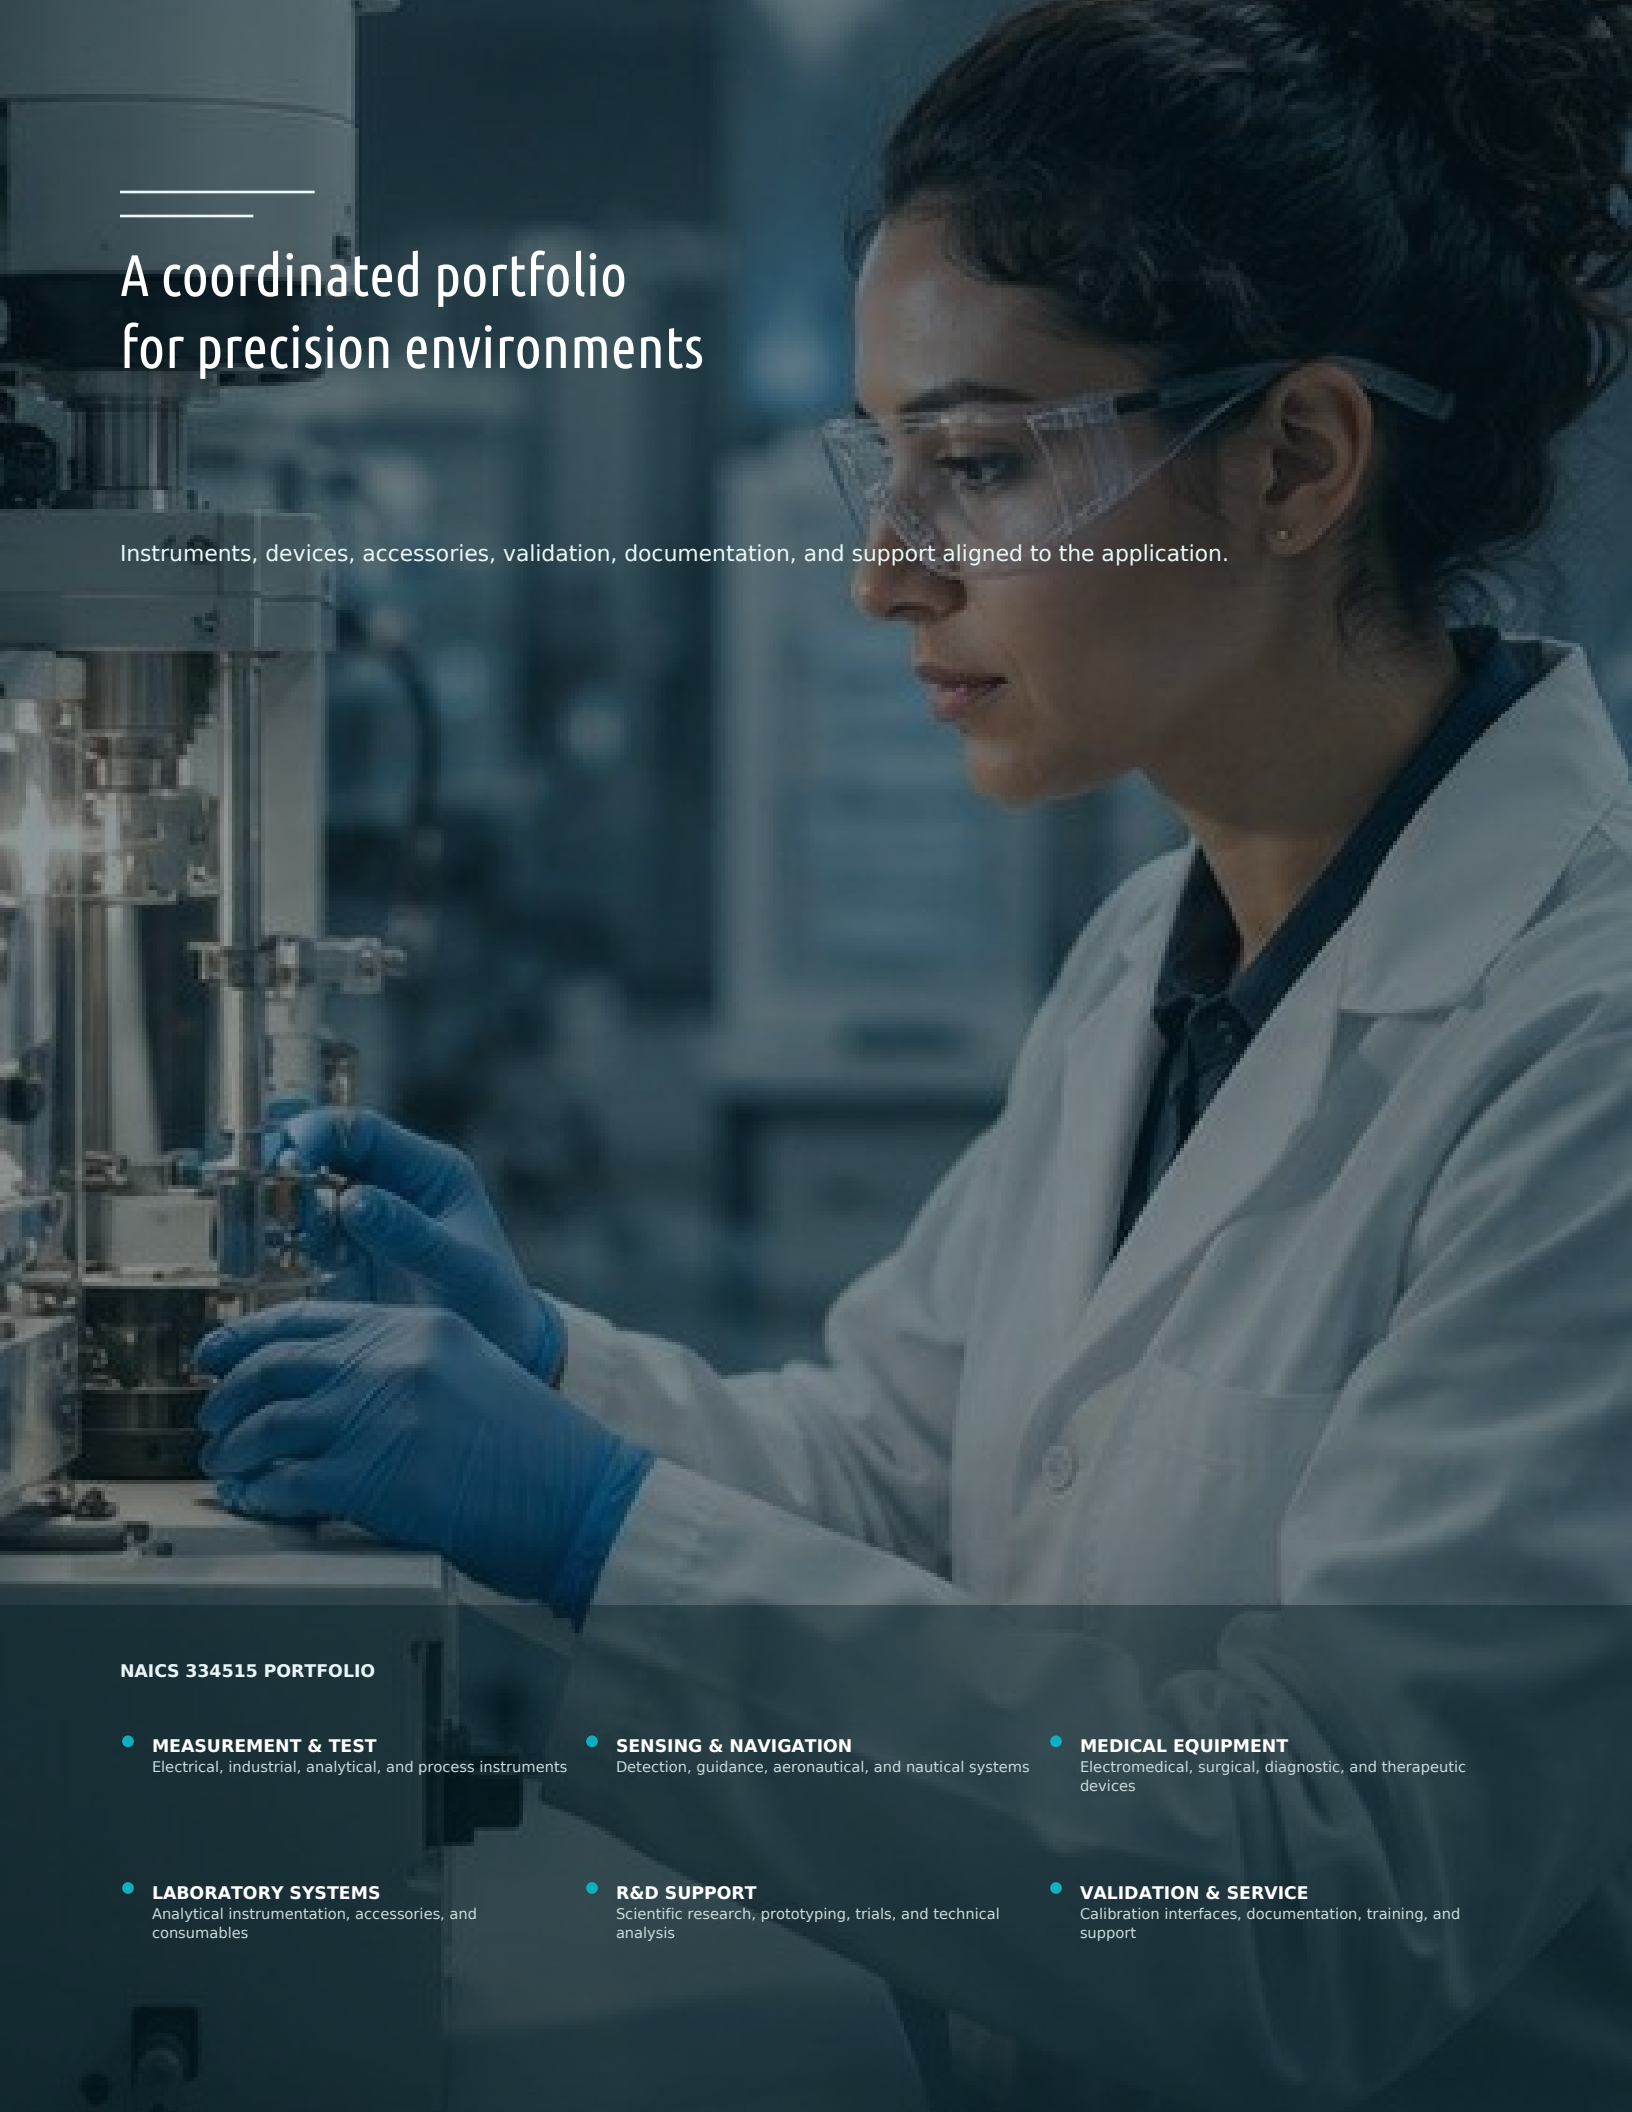

TURN DATA INTO DECISIONS

CAPABILITY STATEMENT

NAICS 334515 | 2026

GOVAGE

Mission-ready capability and coordinated delivery

A coordinated portfolio for precision environments

Instruments, devices, accessories, validation, documentation, and support aligned to the application.

NAICS 334515 PORTFOLIO

- **MEASUREMENT & TEST**
Electrical, industrial, analytical, and process instruments
- **SENSING & NAVIGATION**
Detection, guidance, aeronautical, and nautical systems
- **MEDICAL EQUIPMENT**
Electromedical, surgical, diagnostic, and therapeutic devices
- **LABORATORY SYSTEMS**
Analytical instrumentation, accessories, and consumables
- **R&D SUPPORT**
Scientific research, prototyping, trials, and technical analysis
- **VALIDATION & SERVICE**
Calibration interfaces, documentation, training, and support

MISSION-READY BY DESIGN

Plan. Coordinate. Deliver.

A practical path from a specialized requirement to a supportable, compliant operational result.

LABORATORY & RESEARCH

CLINICAL & MEDICAL

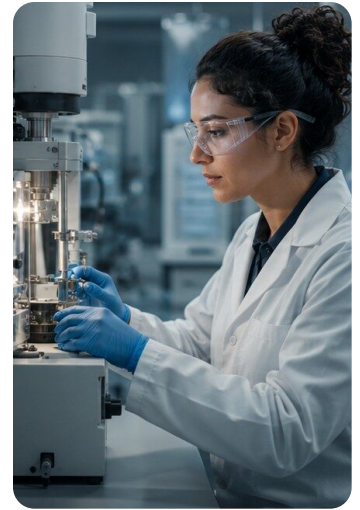

TEST, RANGE & INDUSTRIAL CONTROL

GovAge coordinates manufacturers, technical specialists, instruments, accessories, documentation, calibration interfaces, training, and lifecycle support.

One accountable path for scientific and precision requirements

GovAge coordinates precision equipment, research resources, and technical partners for instrument manufacturing for measuring and testing electricity and electrical signals serving federal and institutional customers.

We align the application, measurement range, accuracy, interfaces, environmental conditions, accessories, documentation, installation, validation, training, calibration, and support.

01

Application & performance review

Confirm users, specimen or signal, range, accuracy, sensitivity, interfaces, environment, safety, documentation, and acceptance criteria.

02

Instrument & solution alignment

Coordinate manufacturers, configurations, accessories, research resources, approved alternatives, schedule, delivery, and site readiness.

03

Validation & lifecycle support

Align installation interfaces, calibration, verification, training, documentation, warranty, maintenance, consumables, and service continuity.

Three capability domains. One accountable partner.

INSTRUMENTS & DEVICES

Analytical, electrical, process-control, navigation, detection, medical, surgical, irradiation, optical, and precision measurement systems.

RESEARCH & TECHNICAL SUPPORT

Scientific consulting, nanotechnology and physical-science R&D;., prototyping, trials, data review, technical documentation, and program coordination.

VALIDATION & SUSTAINMENT

Calibration interfaces, verification, installation support, training, manuals, consumables, warranty, maintenance, and lifecycle planning.

The right precision solution matches the application, controls configuration, verifies performance, and remains supportable for reliable decisions.

OUR STRATEGY

One lifecycle. One accountable path forward.

01 DEFINE

Confirm application, range, accuracy, interfaces, environment, safety, accessories, documentation, calibration, and acceptance requirements.

02 SOURCE & CONFIGURE

Align manufacturers, instruments, configurations, research resources, approved alternatives, schedule, logistics, and site readiness.

03 VALIDATE & SUSTAIN

Coordinate installation interfaces, verification, calibration, training, manuals, warranty, consumables, maintenance, and lifecycle support.

**Mission-led. Compliance-aware.
Built to perform and sustain.**

Registered, ready, and accountable

GovAge is an active SAM-registered entity authorized for all awards.
