Technology and support built around the mission

GovAge is a U.S. technology company and value-added reseller that coordinates tailored multi-vendor solutions for government customers.

We connect products, partners, and practical service delivery across planning, integration, deployment, operations, and sustainment.

01 Custom solutions

Tailored architectures that align technology and implementation expertise to real operating conditions.

02 Mission services

Planning, deployment, logistics, technical consulting, and specialized support for demanding environments.

03 Managed services

Ongoing operational support that strengthens performance, security, continuity, and mission readiness.

Three capability domains. One accountable partner.

SECURE OPERATIONS

Cybersecurity, cloud and data-center infrastructure, networking, storage, backup, secure access, and resilient operations.

FIELD & MISSION SYSTEMS

Secure communications, rugged systems, deployment coordination, logistics, power, integration, and sustainment support.

SCIENTIFIC & TECHNICAL

Laboratory instruments, test and measurement equipment, precision systems, technical sourcing, and implementation support.

The right capability is the one that fits the environment, supports the people, and strengthens the work ahead.

OUR STRATEGY

One lifecycle. One accountable path forward.

01 PLAN

Start with the mission outcome, operating environment, compliance requirements, schedule, and support model.

02 INTEGRATE

Align the right products, OEMs, services, logistics, and implementation expertise around a coordinated delivery plan.

03 SUSTAIN

Support deployment, documentation, operations, lifecycle continuity, and the work required after delivery.

**Mission-led. Compliance-aware.
Built to sustain.**

Registered, ready, and accountable

GovAge is an active SAM-registered entity authorized for all awards.
