

TECHNICAL SERVICES THAT

TURN COMPLEXITY INTO ACTION

CAPABILITY STATEMENT

NAICS 541618 | 2026

GOVAGE

Mission-ready capability and coordinated delivery

A coordinated portfolio for technical programs

Engineering, analysis, planning, design, logistics, and environmental expertise aligned to mission decisions.

NAICS 541618 PORTFOLIO

- **ENGINEERING**
Requirements, analysis, design, integration, and documentation
- **SURVEYING & MAPPING**
Field data, geospatial products, mapping, and records
- **LOGISTICS CONSULTING**
Process, distribution, supply chain, and workflow improvement
- **MANAGEMENT CONSULTING**
Strategy, organization, performance, and implementation
- **ENVIRONMENTAL SERVICES**
Compliance, planning, assessment, and technical support
- **PROGRAM DELIVERY**
Governance, schedule, risk, quality, and stakeholder coordination

MISSION-READY BY DESIGN

Plan. Coordinate. Deliver.

A practical path from a specialized requirement to a supportable, compliant operational result.

FACILITIES & INFRASTRUCTURE

PROGRAM & OPERATIONS MANAGEMENT

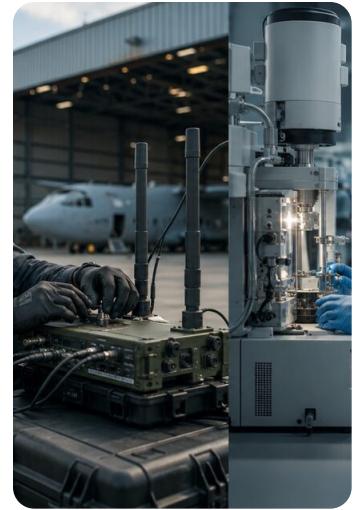

ENVIRONMENTAL & TECHNICAL MISSIONS

GovAge coordinates qualified technical partners, work plans, data, analysis, deliverables, quality reviews, stakeholder interfaces, and implementation support.

One accountable path for technical and consulting requirements

GovAge coordinates qualified technical experts and delivery resources for other management consulting services serving federal and institutional customers.

We align objectives, stakeholders, data, methods, standards, field activities, analysis, deliverables, schedule, quality reviews, implementation, and knowledge transfer.

01

Scope & decision alignment

Confirm objectives, users, stakeholders, data, methods, standards, constraints, deliverables, schedule, and acceptance criteria.

02

Technical team coordination

Align qualified experts, work plans, field and analytical resources, interfaces, reviews, risk controls, and change management.

03

Deliverables & implementation

Coordinate quality assurance, findings, designs, recommendations, records, presentations, implementation support, and knowledge transfer.

Three capability domains. One accountable partner.

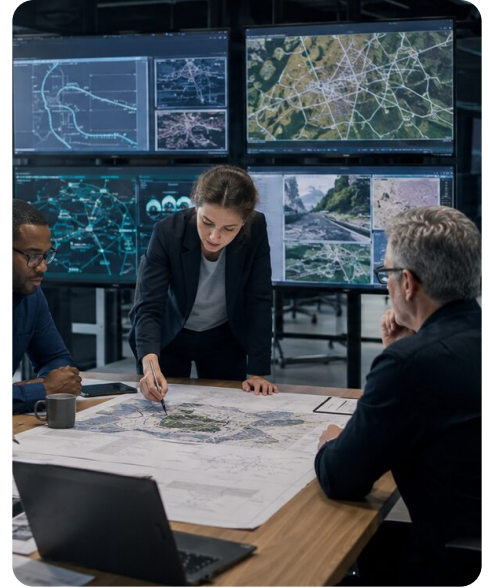

ENGINEERING & TECHNICAL ANALYSIS

Requirements, calculations, design support, surveys, mapping, field data, technical studies, scientific methods, and decision-quality documentation.

CONSULTING & PROGRAM SUPPORT

Process, logistics, distribution, management, environmental and specialized consulting; governance, risk, schedule, and stakeholder coordination.

DELIVERABLES & IMPLEMENTATION

Quality reviews, reports, drawings, geospatial products, recommendations, briefings, implementation support, records, and knowledge transfer.

The right technical partner frames the decision, applies qualified expertise, controls the work, and delivers actionable results.

OUR STRATEGY

One lifecycle. One accountable path forward.

01

DISCOVER

Define objectives, stakeholders, data, methods, standards, field needs, deliverables, risks, schedule, and acceptance criteria.

02

ANALYZE & DESIGN

Coordinate qualified experts, work plans, data collection, technical analysis, design, reviews, interfaces, and change management.

03

DELIVER & IMPLEMENT

Complete quality assurance, reports, drawings, recommendations, briefings, records, implementation support, and knowledge transfer.

**Mission-led. Compliance-aware.
Built to perform and sustain.**

Registered, ready, and accountable
